

Treatment Escalation Plan (TEP)

For adults ≥ 18 years

Hospital number:

NHS number:

Name:

D.O.B:

Use addressograph label

- This form is for guidance and **DOES NOT** replace clinical judgement.
- The TEP is only valid for the duration of this current admission.
- The TEP should be reviewed as the patient's clinical condition changes and a new form completed appropriately. Score through the old form.

Level 2/3	CONSIDER CRITICAL CARE AFTER DISCUSSION • Advanced respiratory support • Multi-organ support	Comment	☒																					
Level 2	• Single organ support e.g. NIV on HDU • Post operative care • Critical care step down	Comment	☐																					
Level 1	• Patients at risk of their condition deteriorating • Level 2 / 3 step down • e.g. Patients monitored on an observable bay with CCOT input		☐																					
Level 0 Active Ward	<table><tr><td>IV antibiotics</td><td>Y</td><td>N</td></tr><tr><td>PO antibiotics</td><td>Y</td><td>N</td></tr><tr><td>IV fluids</td><td>Y</td><td>N</td></tr><tr><td>Blood transfusion</td><td>Y</td><td>N</td></tr><tr><td>Oxygen</td><td>Y</td><td>N</td></tr><tr><td>Blood tests</td><td>Y</td><td>N</td></tr><tr><td>Artificial feeding</td><td>Y</td><td>N</td></tr></table>	IV antibiotics	Y	N	PO antibiotics	Y	N	IV fluids	Y	N	Blood transfusion	Y	N	Oxygen	Y	N	Blood tests	Y	N	Artificial feeding	Y	N	NEWS 2 activation Y N IF NO, perform observations to inform subsequent patient management: BD ☐ TDS ☐ QDS ☐ Comment	☐
IV antibiotics	Y	N																						
PO antibiotics	Y	N																						
IV fluids	Y	N																						
Blood transfusion	Y	N																						
Oxygen	Y	N																						
Blood tests	Y	N																						
Artificial feeding	Y	N																						

SYMPTOM DIRECTED / PALLIATIVE Complete EOL care bundle if appropriate

The following types of procedures should be considered in an emergency situation

Any procedure necessary Comment	Medium intensity procedures Comment	Less intense procedures Comment	Endoscopic or interventional procedures e.g. OGD or drain insertion	This patient wouldn't benefit from or does not wish to have invasive procedures	Not discussed as part of the TEP at this time - Use clinical judgement if the situation arises
☒	☐	☐	☐	☐	☐

There is a requirement that the TEP is discussed with the patient or their health and welfare attorney (if patient lacks capacity). Has the discussion been documented in the patient notes. Yes ☐ No ☐

Healthcare professional making this TEP
